

WHY **HONDA** GENERATORS?

CYLINDER GENERATORS

- Stable power delivery comes courtesy of Honda's highly advanced D-AVR (Digital Auto Voltage Regulator) which uses a microcomputer to precisely control output voltage, providing high quality stable electricity.
- The D-AVR offers a greater level of stability than conventional AVR types resulting in reduced load on the devices driven by the generator, increasing their life and facilitating 100% performance.
- And for functionality and added safety, an AC/DC circuit breaker and oil alert light comes standard, while an easy-to-use control panel features 15 amp sockets, battery charger and circuit protector for ease of use.
- Honda generators have a power factor of 1, meaning a 5.5kw generators will provide 5.5kw, some competitors have a power factor of 0.8, meaning a 5.5kw generator will only deliver 4.4kw
- New generation Honda engines feature increased HP with low vibration
- Exceptional reliability with Honda engines
- Honda engines are the easiest starting of all engine brands, featuring automatic mechanical decompression system and hot sparking transistorised pointless ignition
- Product longevity – Honda products are engineered with very close tolerances which offers a very long life with regular servicing
- Oil alert as standard
- The industry choice of Hire Companies, Emergency Services, Mobile Contractors, Civil Works, Telco's

INVERTER GENERATORS

- The inverter series features a microcomputer-controlled sine wave inverter that guarantees commercial-quality electricity – making it ideal for use with frequency sensitive electrical equipment
- The inverter series also features an Eco-throttle which adjusts the engine speed to meet the load demand. This increases fuel economy whilst also reducing noise
- Honda inverter technology means stable clean power in a smaller lighter package
- Industry standard for the camping/caravanning community
- Essential equipment for on-farm vets for sensitive electronic scanning equipment
- Used extensively by NZ Police, NZ Fire, Ambulance, Search and Rescue, Coastguard, Armed Forces, SIS, generator of choice for the mobile food and coffee truck businesses
- Exceptionally long hours are the norm with regular oil changes and servicing, oil alert as standard
- Easy start, will start every time
- Honda 1st to market with this technology, 30 years of technical experience
- Close overload protection as standard, essential in a rental situation

SALES SUPPORT

- 275 servicing dealers nationwide
- Full service and spare parts available
- Loan generators available in unlikely event of under-warranty failure
- 2 year commercial engine warranty

Love my Honda
